Express Mail Label # ER-579158664US Mailed on February 26, 2004 Attorney Docket # 81098581DIV

Abstract of Disclosure

[0032] A sensor system for generating information useful for determining the environment surrounding a vehicle includes multiple sensing zones, with each zone using sensors operating in different electromagnetic bands. The outputs of the sensors are fused to provide more useful information than that obtainable from either sensor, taken alone.
